

How to find *treasures* in Leadership Advantage

Find your way through our targeted online leadership development program focusing on key leadership and management competencies.

There are multiple modes of learning, including video, audio, text and interactive activities – enjoy!

It's important to build leadership skills, but who has the time?

Do You Need It?

Explore a learning track's key objectives – if you're familiar with the topics covered, you may want to try the 20-minute Fast Track.

Fast Track

Fast Track provides a 20-minute quick trip through the key learning points, including printable and downloadable audio format.

Full Track

Full Track is where you can access the core concepts of the learning track including the Summary and Additional Resources.

On The Go

On The Go is where you can download all the track's assets – including pdf's, e-reader files, mp3s and video to access via iPod, tablet or mobile device.

Test Yourself

Test Yourself – apply what you've learned. Use the Challenge and post-test to gauge your comprehension of the track concepts.

Learn in ways that work for you. The Track organizes all assets by type - allowing you a particular type of learning resource, such as challenges or case studies.

Tips for Finding Treasures In Leadership Advantage

QuickTalks – Videos present important concepts straight from the industry leaders, delivering practical insights that you can leverage right away.

ExecSummaries – Salient points & ideas from the most popular business books.

ExecBlueprints – Authored by industry experts, they provide best practice insights on strategic business issues. These articles are concise, actionable and convey key issues, metrics and lessons-learned.

Interactive Case Studies – Allow you to practice your skills in realistic business scenarios, designed to help you expand your knowledge.

Leader Led Activities

Discussion Guides – are designed to increase awareness about a key concept & reinforce learning either individually or in small groups.

Facilitation Guides –are used to discuss one or more key concepts & facilitate an activity around the topic with direct reports, colleagues or in a small group.
